

## **Visit of the Scientists from ISRO**

On the 8<sup>th</sup> of September, four scientists from ISRO (Indian Space Research Organization) visited Royal Global School. They enlightened the students of grades XI and XII with their vast knowledge of space and its science. In an interactive session, they answered to all the queries of the children and enriched their knowledge of space. They also appreciated the students for their stowage of space research updates and encouraged them to continue gathering knowledge. The delegates informed the children about the various directions in order to serve ISRO in the near future. They also mentioned how all the fields of science have good prospect in ISRO, and that presently India is leading in space research scientists in the world and in the coming years we will turn out to be one of the best.
