

He that plants trees loves others besides himself.”

The students and mentors of Royal Global School took an initiative to make a small contribution to the cause of environment protection by a plant distribution drive across the city. Five spots were selected ,viz. Veterinary College Field Khanapara, Dispur Parade Ground, Shradhanjali Kannan , Dighalipukhuri point and Guwahati Planetorium, Uzan Bazar, and a total of three hundred plants were distributed by groups of students in each spot. A total of 110 students and 20 staff were involved in the drive. It was quite encouraging for the students to have passers by appreciate the gesture. Every step makes a difference, and we do hope that this will spark off the zeal in the minds of people to do their bit too..

After the distribution program the different group of students were taken to JB's of Fancy Bazar, Ganeshguri and Food Villa for having breakfast where the students enjoyed a lot.
