

Kindergarten Graduation Day

Graduation Day- a momentous day in the life of a tiny tot. The little ones in their smart graduation robes bid adieu to a wonderful year with their teachers and sent the parents back home on a cheery note. The munchkins gracefully danced and paid homage to the season Spring which was followed by a musical 'The Wide Mouthed Frog'.

The grand finale was a song thanking the teachers for all their love and support and their hard work. The chief guest for the day Dr. Mimi Borgohain, commended and complimented the students for putting up such a great show. Her effective tips on parenting were well received by all.
