

### **SEMINAR ON VEDIC MATHEMATICS AND MEMORY DEVELOPMENT**

On 1st December, 2015, a stimulating session on 'Vedic Mathematics and Memory Development' was organized for Grade VIII –X at Royal D' Colloseum. The session was conducted by Mr. Keshav Agarwal who emphasized on the role of the visual sense and the function of the right brain in retention of facts and figures. Different ways and means of enriching vocabulary were demonstrated before the audience. Vedic mathematics is considered to be one of the fastest mental calculating system of the world. Mr. Agarwal demonstrated some quick methods of calculating squares, multiplication, division and the like.
