

Royal Global School has always been enthusiastic about bringing professionals across the nation. AntarPrerna is one such platform where the school invites entrepreneurs and experts and experts from various fields. It also invites people from different arenas to speak to the students and instill them with insights on their fields of expertise. On 14th of May, 2020, a session was conducted through the Zoom app where the Chief Guest Of Honour Mr. R Chandrasekaran enlightened the students with his words of wisdom.

Mr. Ramamurthy briefed the students on 'Insurance' where he first talked about 'objects' that are at risk, hazardous situations that can take place due to that risk and the consequences that it may have. With the enhancement in the technological and business sector, there is a rise in the need of Insurance policies across the nation which includes all households and organizational fields so that they could be insured against risks if any incident takes place wherein the Insurance Company would cover all the incidental costs. He also put light upon the fact as to how important it is to have an Insurance in the present time and how it has massively impacted our lives. Coming to the end of the event, a question and answer was in order where the curious students asked questions which included that regarding his experience working in the gulf, how he sees the future of Insurance as a Career for the youth and how it helps the business organizations in insuring their head offices and warehouses. With the end of the Question and Answer session, the event had also come to an end.

Royal Global School is very thankful and honoured to have had Mr. R Chandrasekaran, a reinsurance professional. The students had a lot to take in from this fruitful session.
